# Instagram Pictures and Viewshed: what do current users and visitors look at?

The map shows a city area with a river and various landmarks. Six blue speech bubble icons are placed over the map, each containing a different photograph of a cityscape or landscape. Dotted lines connect these speech bubbles to specific locations on the map, indicating the viewshed from those points. The photographs include:

- A city skyline across a body of water.
- A sunset over a city skyline.
- A city skyline reflected in water.
- A city skyline across a body of water.
- A city skyline at night.
- A city skyline at night.
