Design Review: Sea Level Rise Adaptation Proposal for Lake Merritt

How PS239T has helped me form my design strategy...

Socioeconomic focus makes my design unique in an ecological design studio :)

LAKE MERRITT
NOW...
DESCRIBED BY
MOST FREQUENT WORDROOTS AND
WORDS USED IN ALL NEWSPAPER
ARTICLES BETWEEN 1980 and now
&
SAMPLE PUBLIC INSTAGRAM PHOTOS THAT TAGGED 'LAKE MERRITT'

Process

1. Install python-Instagram
2. on instagram developer site, register a new client to get client id and client secret

The screenshot shows a client registration page for 'Lake Merritt'. At the top, there's a blue header bar with the client name 'Lake Merritt' on the left and three buttons: 'DELETE', 'RESET SECRET', and 'EDIT' on the right. Below the header, there's a section titled 'CLIENT INFO' with two entries: 'CLIENT ID' followed by the value 'b5d78f65c2b94e74ac6363d8f2f7bcfd' and 'CLIENT SECRET' followed by the value '6e00cda85eca47b281af4aa88275c5de'.

3. web scrape geolocation (long and lat) with python

```
#THESE ARE PUBLIC PHOTOS TAGGED WITH 'LAKE_MERRITT'

from instagram.client import InstagramAPI
from random import randint
import sys
import time
from collections import OrderedDict

client_id = 'b5d78f65c2b94e74ac6363d8f2f7bcfd'
client_secret = '6e00cda85eca47b281af4aa88275c5de'
access_token = '19594423.1677ed0.d298d661a5dd4587becb8a83b3cca787'
client_ip = '73.189.135.127'

#client_id=client_id, client_secret=client_secret, redirect_uri=redirect_uri

api = InstagramAPI(client_id=client_id, client_secret=client_secret, client_ip=client_ip, access_token=access_token)

media_with_location=[]
all_media_ids = []
```

Process

5. Output to a csv. file
